A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 8-30-04 has been entered.

Applicant's amendments and arguments with regard to the rejection of the product claims over Kondo et al (5,304,389) are sufficient to overcome the rejection of the claims.

Claims 1-3,5-15,17-18,20-22,24-28,29-31 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for a coating material with less than or equal to 5% water, as disclosed on page 9, lines 1-3, does not reasonably provide enablement for a coating with any and all amounts of water in it. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to practice the invention commensurate in scope with these claims.

Claims 1-3,5-15,17-18,20-22,24-28,29-31 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for a coating with 25-75% sugar, does not reasonably provide enablement for a coating with any and all amounts of sugar. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to practice the invention commensurate in scope with these claims.

Claims 1-3,5-15,17-18,20-22,24-28,29-31 are rejected under 35 U.S.C. 112, first paragraph, because the specification, while being enabling for a coating with more than 25% oil or fat, does not reasonably provide enablement for a coating with any and all amounts of oil or fat in it. The specification does not enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to practice the invention commensurate in scope with these claims.
